EDUCATION

St. Mary's Group of Institutions | Hyderabad, India

[Degree Name, e.g., Bachelor of Technology in Computer Science]

Expected Graduation: [Month, Year]

TECHNICAL SKILLS

- **Languages:** Java (Core Concepts), HTML, CSS, JavaScript
- **Tools & Platforms:** Git, GitHub
- **Other:** Digital Marketing, Graphic Design

PROJECTS

Java Utility Suite & Concepts Demo | Java

- Developed a suite of Java applications demonstrating core programming concepts, including control statements, class structures, and thread lifecycle management.
- Implemented thread synchronization and priority handling to optimize performance for concurrent processes.

Web Development Toolkit | HTML, CSS, JavaScript

- **To-Do List App:** Built a dynamic task management interface allowing users to add, edit, and delete daily tasks.
- **Web Calculator:** Designed a fully functional mathematical calculator with a responsive user interface.

Web Dev From Scratch | Content Creator & Educator

- Launched an Instagram-based educational initiative to teach web development fundamentals to beginners.
- Created design assets and structured curriculum to simplify complex coding topics for a student audience.

LEADERSHIP & ACTIVITIES

Student Ambassador Initiative

- Engaged in student leadership activities, focusing on peer mentorship and technology advocacy on campus.

Public Speaking

- Demonstrated strong communication skills through public speaking engagements and technical presentations.
